Thank you all for joining us this year at PhreakNIC 21. I hope you enjoy yourself, learn something, and make some friends that you will continue to stay in touch with for years to come.

If this is your first time or you want to know how to maximize your weekend with us, I can only recommend doing what I have learned in the 9 years I have been participating at PhreakNIC: Introduce yourself to other attendees. Ask them what they are up to and what tech they are passionate about. Ask to grab lunch or dinner with them. Ask questions. Everyone here is a teacher of something or enthusiast. You are among friends. If you have any questions or concerns, please let one of the organizers know. See you around this weekend!
